Buggies Built to Last

Lightweight Design

Triple-wall polyethylene construction ensures our buggies are lightweight for easy maneuverability, even when handling heavy loads.

Operate in Silence

Innovative noise reduction features decrease rolling and dumping noise by up to 17dB, allowing for a quieter and safer work environment.

Improved handling keeps your yield...

Fresh **Safe** **Optimal**

Superior Hygiene Standards

Hygienic and easy to clean, all Sæplast PE products prevent liquid absorption, reduce bacterial growth, and avoid contamination from fibers or debris, ensuring safe meat and poultry handling.

Boosting Yield & Efficiency

Our containers enhance yield and efficiency by reducing product loss during transfer, minimizing waste, and ensuring smooth operations without disruptions from damage or contamination.

Why Choose Sæplast?

Choose Sæplast for durable, sustainable containers that support a circular economy that reduces waste, improves efficiency, and ensures long-term value.

WEIGHT	48lbs

DP40C-FR

	OUTSIDE
LENGTH	48"
WIDTH	40"
HEIGHT	6.7"
WEIGHT	48lbs

Lids are available for both containers and buggies.

Pallet Runner vs. LEG

Pallet Runner
Bottom is better suited for safe stacking and conveyor use.
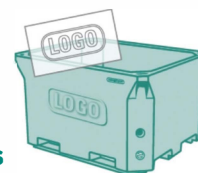

LEG
Container legs are ideal for forklift and pallet jack transport.

Custom Branded Solutions

Silk Screen Printing
One-colour screen print of a logo or text molded into the wall of the box. (Ink colours are limited)

Mold-In Graphics
Molding a full colour logo directly onto the bin allows for your logo to stand out and provide maximum exposure.
